#1 RATED BRAND
IN CORDLESS OUTDOOR POWER

#1 RATED BRAND

EGO is the #1 rated brand in cordless outdoor power according to industry experts and purchasers based on power, performance, durability, and value.

POWER AND PERFORMANCE OF GAS

All EGO tools deliver or exceed the power and performance of gas—without the noise, fuss, or fumes—guaranteeing maximum power, longer run times, and industry-leading recharge times.

INDUSTRY'S MOST ADVANCED TECHNOLOGY

Our patented ARC Lithium™ technology is the most advanced in the outdoor power equipment industry with its shock-resistant design, intelligent power management, innovative ARC-shaped design, and keep-cool cell technology.

INNOVATION

No matter which EGO tool you use, you can expect groundbreaking innovation that solves for pain points, such as the world's first LINE IQ™ technology, world's first platform-compatible zero-turn riding mower, and world's first auto tensioning technology.

POWER+ BATTERIES & CHARGERS

THE MOST ADVANCED TECHNOLOGY IN THE INDUSTRY

BETTER PERFORMANCE IS BUILT IN

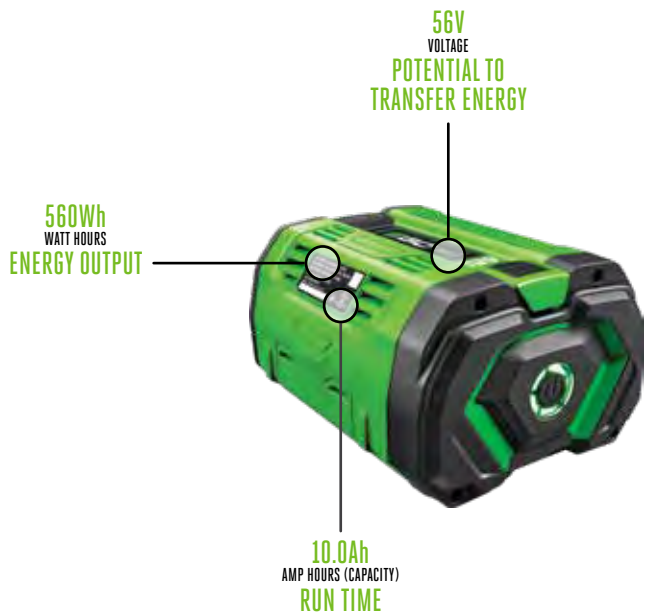

No matter which EGO battery you choose, you'll get:

- Protection from drops and the elements, thanks to our shock-resistant design
- Our patented power management system to maximize power and runtime
- Revolutionary phase-change material that keeps cells running cool
- An integrated fuel gauge that shows you how much power is left
- A three-year limited warranty*

*Up to 5 depending on model. See egopowerplus.com for details.

ARC LITHIUM™ 56V

NOT ALL VOLTS ARE CREATED EQUAL

VOLTAGE ≠ PERFORMANCE

Performance of a battery is determined by a combination of ENERGY(Wh) and POWER(W)

$$\begin{matrix} \text{CAPACITY} & \times & \text{VOLTAGE} & = & \text{ENERGY} & & \text{VOLTAGE} & \times & \text{CURRENT} & = & \text{POWER} \\ (\text{Ah}) & & (\text{V}) & & (\text{Wh}) & & (\text{V}) & & (\text{A}) & & (\text{W}) \end{matrix}$$

FROM EMPTY TO FULLY CHARGED, IN JUST 30 MIN

With a range of battery sizes available from 2.5Ah to 12Ah, you can choose the power you need. When it's time to recharge, the EGO POWER+ Turbo Charger is among the fastest on the market. The intelligent battery control system constantly monitors each cell's charge and temperature to deliver the most efficient and quickest charge.

Plus, the fan-cooling system allows the battery to start charging sooner and finish faster. As a result, the time it takes to refuel the battery is often less than the run time you get from a full charge. So you'll always have a battery ready for all-day power and run time.

SELECT CUT™ MULTI-BLADE SYSTEM

The Select Cut™ Multi-Blade Cutting System is equipped with three interchangeable lower blades: the Mulching Blade, High Lift Bagging Blade, and Extended Runtime Blade. The Mulching Blade comes installed on the lawn mower and is ideal for weekly mulching, giving you the mulching quality expected from a high-end gas lawn mower. The High Lift Bagging Blade provides extra suction ideal for bagging, leaving your yard free of clippings. The Extended Runtime Blade provides an optimal balance of cut quality and runtime for all around performance. All three blades can be used interchangeably based on your desired cut. The Upper Blade is used in combination with the lower blade chosen to slice the grass into fine fragments, greatly enhancing cutting performance with all grass types.

TOUCH DRIVE™ TECHNOLOGY

Engage the self-propel function with the touch of your palm, change the speed at the same time with the scroll of a dial.
